PROGRAMMING
Confident:
HTML • CSS • JAVASCRIPT• BOOTSTRAP •TAILWILD • REACT • REACT-ROUTER
Familiar:
C++ • C# • GitHub

GRAPHICS
Figma • Adobe Photoshop

COMMUNICATION
Team Work • NetworkingTime Management • Motivation Adaptability • Creativity

INTERESTED IN
Problem solving • UI UX
Web 3 • Blockchain
Artificial Intelligence

LANGUAGES
Fluent:
English • Bangla

EXPERIENCE

AIUB | TEACHER ASSISTANCE
September,2021 – December,2021

- Assisted the professor in developing course materials, including lecture slides, assignments, and projects, to ensure effective delivery of computer graphics concepts.
- Mentored students in developing their individual projects, offering technical advice
- Conducted regular lab sessions, providing hands-on guidance and support to students

PROJECTS

HERO GADGET | WEB-APP

- Developed a React-based e-commerce site using React Router, Headless UI & Tailwind CSS, featuring a product showcase and cart functionality.
- Implemented an "Add to Cart" feature that stored selected products in local storage for persistent access.
- Designed a user-friendly cart page displaying item quantity, pricing, and options to remove individual items or clear the entire cart.

CHATER & CO | WEB-APP

- Developed a modern programming book site using React and React Router, enabling navigation and showcasing collection of books.
- Implemented a shop section with hover effects for quick book details and a dedicated page displaying comprehensive information, prices, and images for each selected book.

PORTFOLIO | WEB-APP

- Created a sleek and modern portfolio website using React.
- Implemented intuitive navigation and a visually appealing layout to highlight projects, skills, and achievements effectively, providing an engaging user experience.

ONLINE JUDGE

CODECHEF | **LEETCODE** | **BEECROWD**

- Solved a total of 200+ problems
